Cosmic Landscape sospensione

**DESIGN BY :**

Ross Lovegrove
2010

MATERIALS :

Methacrylate, painted Steel

DESCRIPTION :

"The Cosmic Landscape appears to have emerged from a digital lava flow of light...out of a ceiling , out of a wall , out of a floor ...releasing its complex shape as algorithmic air..... Liberated into free space it seems to cool into a complex three dimensional sponge of light... appearing dematerialized so its edges blurr becoming dimmed and soft on the eyes, changing its colour, enjoying its nebula nature."
