TECHNICAL DATA

CONSTRUCTION

4-leg apron table construction with separate table top.
Rectangular steel tube yoke-shaped frame 30/30/2 mm, welded on mitre joint.
Cross member, rectangular steel tube 30/30/2 mm,
apron rails and cross members are welded together.
Table top screwed from underneath through cross members using countersunk screws, 3 mm gap between table top and apron.

TABLE TOP

Base panel SPAN E1 22 mm, optionally with synthetic resin, linoleum or veneer finish.

STEEL PARTS SURFACE TREATMENT

Powder-coated, aluminium light

WOOD SURFACE TREATMENT

Stained with highly light-fast, water-based stain (dye/pigment) on request.
Colours according to the Dietiker standard stain collection/Arik Levy stain collection colour chart or customer colour sample.
Coated with 2-component, water-based polyurethane lacquer that has excellent light-fast properties and acts as a UV filter.
Meets highest standards according to DIN 68861 and complies with increased fire safety requirements (flame-retardant).
The same applies to solvent-based coatings.

GLIDES

Adjustable glides

ACCESSORIES

Cable management
